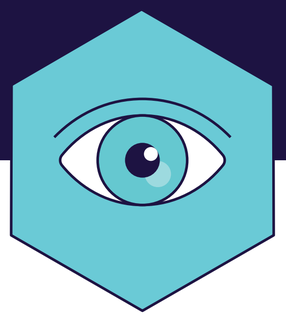
TIP ENTREPRENEURIAL JOURNEY:

The team project is the centrepiece of the curriculum where participants face challenging, interdisciplinary, and real-world problems.

START HERE



IDENTIFY A PROBLEM

Form into teams and choose which real-world problem you will tackle throughout the program.

UNDERSTAND TECHNOLOGIES

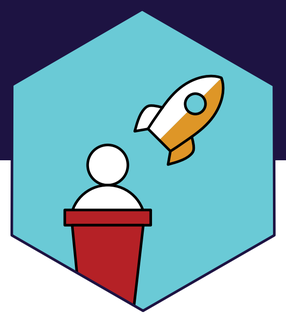
Explore today's hottest technologies and use them to develop your idea.

FIND A SOLUTION

Use creative thinking skills to develop a solution, speak with potential customers to validate your idea and build a business model.

DEVELOP A PROTOTYPE

Bring your ideas to life by creating a prototype of your product with the help of experts from the Israeli tech industry.



PITCH

Work with story-telling experts to develop your pitch and present your venture to experts, entrepreneurs and investors.
