Rothberg
International
School

ABOUT MISHPATIM

Unveil the complexities of the Israeli legal landscape and delve into pressing issues shaping its legal discourse. Welcome to Mishpatim, the gateway to an immersive experience in Israeli and international law. This seminar provides an in-depth exploration of the Israeli legal system while dissecting current debates that define its course.

SEMINAR HIGHLIGHTS

Israeli Legal Mosaic:

Delve into the Israeli legal system and unravel its intricate layers.

Controversial Conversations:

Engage with current debates on judiciary roles, democratic and Jewish attributes, Palestinian population dynamics, and the plight of asylum-seekers.

Global Legal Lens:

Traverse through international criminal law, human rights, immigration and refugee law, and counter terrorism aspects.

Eminent Insights:

Learn from vibrant guest lectures by Israel's emerging legal scholars and advocates championing democracy and human rights.

ALUMNI 2023

Phoebe, University of Melbourne

"I feel very privileged to have been able to study Israeli and International Law at an Israeli University. Learning in this context was particularly enriching and allowed me to engage closely with the course content. In particular I found the various excursions we undertook throughout the program, including visiting the Knesset and the Supreme Court particularly useful and provided insight and context to the course content."

Vasil, University of Adelaide

"By participating in the Mishpatim program, I gained so much more than what I had hoped for. The comprehensive curriculum and engaging lecturers managed to effectively cover a topic so complex in just four weeks, leaving me with more than enough knowledge to begin engaging in the topic further. The campus at Rothberg is beautiful and lively, which made spending time on campus, both to study and to socialise, even more exciting. On top of that, my time in Jerusalem opened my eyes to a unique way of life amongst diverse and dynamic communities, which is an experience that cannot be replicated anywhere else."
