

Date: October 11, 2023

Shalom,

In light of the current events, the Ministry of Interior has announced that they are extending all valid visas until the 9 November 2023. This includes B1 work visas.

This extension is valid only for visas that had not expired by 10 August 2023.

Please note that the Ministry of Interior will not be operating as usual for the foreseeable future. As such, we expect it will not be possible to extend visas of students and researchers whose visas have recently expired.

If this is the case, please email both intvisas@savion.huji.ac.il and intliaisons@savion.huji.ac.il with the following information:

Your full name, name of program of study, passport number and visa expiry date.

In the email enclose:

A copy of your passport

A copy of your visa

Proof of studies for the academic year 2024.

We will compile a list of such cases and handle them when calm returns.

Due to the current situation, please try and send urgent emails only.

All the best ,

Yehuda Hersh | International Liasons Coordinator
