Tips and important information:

1. Hot water in the apartment: Make sure to turn on the boiler an hour in advance to ensure you'll have hot water to take a shower. Don't forget to turn it off.
2. Roommates! Try to be sensitive to your roommates needs – if each one of you will do so – living together will be a great experience.
3. Common areas should be kept clean and neat, be mindful of your belongings and cleaning after yourself
4. We recommend taking turns with cleaning duties around the apartment. (Dishes, bathroom, floors, taking out trash etc.)
5. New roommates may join your apartment at later dates, please be sure to welcome them with a clean and neat apartment.
Think about yourself entering a new place.... our dorms coordinate will try to give you timely notification of this.
6. Purchasing appliances for the apartment (microwave, toaster etc.) can be done jointly, for the use of all tenants. Talk to them.
7. We also recommend communicating and planning together on how to maintain the apartment and living together.
8. If you are designated to room no. 1, please be aware that this is the safe room for all residents of the apartment.
9. Drinking, smoking and drugs are prohibited!
